

M J ROONEY CELEBRATES ANNIVERSARY YEAR WITH FOUR NATIONAL AWARDS

As well as celebrating 30 years in business, M J Rooney Construction Ltd has also been successful in all four awards they were nominated for this year. This is a fitting reward for the very hard working team all of whom have contributed to this industry recognition.

The awards are: Construction News Awards - *Company Innovation of the Year*, Ground Engineering Awards - *Ground Engineering Contractor of the Year*, New Civil Engineer Awards – *Listed in the Top 100 UK Civil Engineering Company & Technology Champio' Winners* and Construction News Specialist Awards – *Specialist Contractor of the Year*

The company starts every project with value engineering by its design team to provide the best possible scheme as appropriate. The entire structure is built and detailed in its 3D modelling suite to solve potential issues early on, thus ensuring projects run like clockwork on site and are finished to perfection by its friendly, trained and professional workforce.

Construction News Specialist Awards – March 2017

'Specialist Contractor of the Year' – Winner

Judges comments – *'Great passion, innovation and organisation. A genuine specialist who has worked itself into a fabulous position in the market. MJ Rooney is making its sector look professional, organised and safe, while making impressive use of technology to innovate and upskill.'*

New Civil Engineer Awards – June 2017

Listed in the Top 100 UK Civil Engineering Company & 'Technology Champion' category Winners

Judges comments – *'The judges were impressed by the application of digital technology, end to end, in a company/area that would not normally be seen in this arena. They found the open source approach very refreshing and how digital technology was completely embraced. As a small company, they have taken a leadership approach to digital tech, and have a future thinking mindset. Furthermore, the judges found their external comms approach to be excellent. Overall very well presented, with a very practical feel to the whole thing.'*

Ground Engineering Awards – July 2017

'Ground Engineering Contractor of the Year' – Winners

Judges Comments – *'M J Rooney's company growth has been impressive. Staff development has been well planned and training – including the design of a bespoke waterproofing course, is commendable. Development of modelling technology is clearly having a beneficial effect on site and encourages collaborative working.'*

Construction News Awards – July 2017

'Company Innovation of the Year' – Winners

Judges Comments – *'M J Rooney has set about using innovation and technology to not only drive change throughout the company but, more importantly, in their sector. From the industry leading 4D modelling used on every basement project it carries out, to the QR codes on community boards to guide the public through a project's development, innovation is truly at the heart of everything it does.'*
